**In the Claims**

Please cancel Claims 3 and 14 and amend Claim 26 as shown below:

26. (Thrice Amended) A method of transferring data from a first surface to other surfaces via a transfer medium comprising a polyimide material, said method comprising the steps of:

- K1
- (a) casting said transfer medium on a surface containing said data, wherein said casting includes separating said transfer medium from said surface containing said data such that said transfer medium includes said data; and,
  - (b) using said transfer medium to transfer said data to said other surfaces.
